## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-9, 11-13 and 20-30 are allowed.

The following is an examiner's statement of reasons for allowance:

The references fail to teach, disclose, or suggest, either alone or in combination, the posts having a plurality of stop surfaces, wherein the plurality of stop surfaces permits the spring to be variably compressed, the plurality of clips lock to the stop surfaces, holding the springs in compression, the plurality of clips locking, substantially simultaneously and holding the springs in compression and in combination with the rest of the limitations in the base claims.

As mentioned in Applicant's arguments (Pages 3-6), the combination of Applicant's admitted prior art and Lin et al. doesn't show the limitations of Applicant's claims as recited above.

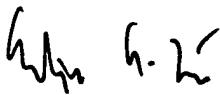

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
